AT MARION'S CAPITOL.

Business Transacted in Its Various Departments.

The grand jury is disposing of cases that demand its investigation, in remarkable brief space of time. Tuesday afternoon a "true bill" was returned against Frank Emerson, charging him with the larceny of an overcoat from Mel Hamilton's saloon. He was arraigned later in the afternoon and entered a plea of "guilty." A "true bill" against Emerson was returned at the forenoon session but owing to an error in the wording thereof, the indictment was dismissed and the matter was resubmitted to the grand jury for investigation, with the above result.

"True Bills" were also reported against Felix Stirrup, L. Jackson and Dick Horner, all of whom were indicted for larceny from a dwelling. Jackson and Stirrup were arraigned and each pled guilty. Sentence will probably be passed on Friday morning.

Just previous to adjournment "true bills" were also reported against J. B. Robertson charged with forgery; and and China George, charged with larceny.

C. B. Updegraff has been excused from further service as a grand juror, on account of sickness. C. W. Knox has been selected to take Mr. Updegraff's place.

Henry Helmke, of Turner, is acting as temporary deputy for Sheriff Wrightman during the session of the circuit court.

The jury in the case of Webb vs. Plowman, action for money, this morning returned a verdict for the defendant. Webb is a real estate agent, of Silverton, and demanded judgement for \$350, alleged to be due for disposing of a farm for the defendant.

Willard Birchard, the fender-rapist, today entered a plea of "not guilty" on each of the three charges on which he has been indicted. His case will probably be called within a few days.

Frank Emerson, who pled guilty to the indictment charging him with larceny from a dwelling, this morning received a sentence of three years in the penitentiary to which institution he was immediately conveyed.

Horne, under indictment for larceny from a store, this morning entered a plea of "not guilty." Horne is charged with the larceny of a watch from the Johnson jewelry store on Commercial street.

J. B. Robertson, who is under indictment for forgery, is lying quite ill with typhoid fever at the county jail. He has been transferred to the women's department of the jail and is having the best of care. It may be possible he will not recover sufficiently to stand trial at this session of the circuit court.

APPROPRIATIONS.

For Chemawa Indian School

Supt. T. W. Potter Receives Good News From Washington, D. C.

Superintendent T. W. Potter, of the Chemawa Indian Training School, received some encouraging news this morning from Washington, D. C. It was in the shape of a communication from Senator Geo. W. McBride and D. M. Browning, Commissioner of Indian Affairs, and pertains to the appropriation towards the support of the school located at Chemawa.

The effort to have the appropriation of last year increased has been recommended by Commissioner of Indian Affairs D. M. Browning, and upon his recommendation Senator McBride by personal efforts and Senator Mitchell, through communication with members of the committee, have been earnestly and faithfully laboring for the passage of the bill.

The bill is in charge of the senate committee and is being amended to better suit the school and its rapid growth. The bill proposes an appropriation of \$15,000 for new buildings, a like sum for a steam heating plant and \$5000 for general affairs and improvements, besides numerous minor items, making a total appropriation of \$25,000. These improvements will furnish ample accommodations for 300 pupils. This is an increase of over \$40,000 over last year's appropriation and it is only to be hoped the bill may successfully pass both houses of our national legislature.

CONTRACT LET.

The basement will contain kitchen, laundry, dining-room, lecture room, furnace room with pantries and ample corridors. The upper floors will be devoted to the private of physician, operating rooms, and private wards with large hallways and corridors. Henry Harrell is the architect which is in itself sufficient to guarantee the character of the structure which will fill a long felt want and at the same time be an ornament to the city.

THEIR SECOND APPEARANCE.—The Salem Jolly Lady Minstrels were greeted with another crowded house at the Reed last evening when they repeated their splendid performance given during the holidays. The program given at the initial performance was considerably modified. The singing, jokes, drills etc were well executed. The singing was all that could be desired and the young performers that contributed their talents towards the success of the evening did very creditably. The jokes were mostly new and original and created considerable amusement. The pleasure of the evening was greatly augmented by the delightful music furnished by Parsons orchestra of Portland.
